

Emergency Medicine Residency Program

The UPMC Hamot Emergency Medicine Residency Program offers a well-rounded training experience in the field of Emergency Medicine. UPMC Hamot is the recognized leader in the provision of Emergency and Trauma Care service for the Tri-State region (Northwest Pennsylvania, Southwest New York, and Northeast Ohio).

The program provides the osteopathic resident with progressive learning experiences that develop the attitudes, skills, and knowledge of an osteopathic physician to efficiently provide quality emergency care. The residency is a four-year, AOA-accredited program and well prepares the resident to meet certification requirements of the AOA through the American Osteopathic Board of Emergency Medicine.

Osteopathic principles and practices are integrated into each clinical rotation, allowing UPMC Hamot residents to integrate OMM skills and practice into the treatment and diagnosis of emergency medicine patients.

Experience a Well-Rounded Program

- Clinical/procedural labs including bedside ultrasound, patient simulation, airway management and OMM.
- Four hour didactic session every week.
- Monthly Journal Club.
- Monthly Emergency Medicine board review.

Apply Now!

For consideration in UPMC Hamot's training program, the following is required:

1. Completion of the ERAS common application form.
2. A personal statement.
3. Medical school transcripts.
4. A letter of recommendation from the Dean or appropriate officer of the applicant's medical school.
5. Three letters of recommendation from physicians who are acquainted with the applicant's work capabilities.
6. An official copy of board scores.
7. UPMC Hamot participates in the ERAS (Electronic Residency Application Services) Program as well as the NMS Match.

About UPMC Hamot

UPMC Hamot is a 412-bed tertiary care hospital and fully accredited Level II Trauma Center. The Emergency Department volume is currently over 68,000 patients per year and is growing. We treat a diverse patient population with moderate to high acuity. The 25,000 square foot "state of the art" Emergency Department has 35 private patient rooms, including three dedicated trauma resuscitation rooms and on-site radiology and CT suites. We also have a patient tracking system, bedside registration and in-house dictation.
